Marlin™ | Smarter Management of Your Maritime Operations

Marlin

→ Optimized maritime operations
→ Reduced operational costs
→ Improved safety performance
→ Collaboration and teamwork

Marlin is the only commercially available marine intelligence system that combines temporal project planning with 3D spatial situational awareness to optimize operations, reduce costs and improve safety performance.

INTEGRATING REAL-TIME DATA TO STREAMLINE YOUR OPERATIONAL WORKFLOWS

Emergency Response | Integrated Activity Planning
Geophysical / Geotechnical Operations | Offshore Logistics and Supply Vessels
ION is a leading provider of technology-driven solutions to the global oil and gas industry. ION’s offerings are designed to help companies reduce risk and optimize assets throughout the E&P lifecycle.

ION has been delivering solutions to the oil and gas industry for over 40 years, and is the leading provider of real-time, multi-vessel positioning and control systems. For further information contact marlin.sales@iongeo.com.

KEY BENEFITS

- Reduced offshore logistics costs
  - Fleet and route optimization
  - Improved fuel efficiency
- Reduced HSE risks
  - Anticipation and mitigation of potential hazards
- Improved situational awareness
  - Digitization of real-time activity
  - Data integration with key operational systems

Teamwork
- Collaboration across customer functions and teams
- Cooperation with 3rd party businesses, for example, fisheries

World class customer support and training
- Dedicated support team available 24/7

OPTIMIZING OPERATIONS AROUND THE WORLD | Over 60 deployments Worldwide

Marlin deployments

*Marlin had an immediate positive impact on operational efficiency and reinforced our recommended changes to current systems and processes.*

- Oil and Gas Major, North Sea Deployment

*ION detected multiple potential conflicts during this project all of which were identified, tracked and managed to reduce the overall survey duration. It is clear that both ION services personnel and Marlin contributed significantly to the efficient and safe operation of this challenging project.*

- Oil and Gas Major, Arabian Deployment
