## MARINE FIELD SERVICE BULLETIN

<b>FSB Number</b>	1319340165
<b>FSB Title</b>	BirdCheck and Hand Held PC Software Updates_DCC File Format Change
<b>Date</b>	January 17, 2019
<b>Originator</b>	Sean Stanford
<b>Product Group</b>	Positioning
<b>Product Name</b>	DigiBird (domestic and export)
<b>Product P/N</b>	9000-5011, 9000-5011-2, 9000-5011E, 9000-5011E-2

### Synopsis:

This FSB refers to an update to the BirdCheck software and the HandHeld DigiCourse software. The updates are required as there has been a change to the DCC file format. This file contains the compass coefficient offsets and is loaded into a compass unit.

### Affects:

Due to the DCC file format change, users will have to install the latest BirdCheck software (version #). If the Hand Held PC is used to download DCC files to the compass units, the software will also have to be updated.

### Problems/Symptoms:

N/A

### Action Required:

Users will have to download the latest BirdCheck software and/or request the Hand Held PC software (See procedure below).

### Tools Required:

N/A

### Parts Required:

N/A

**Safety Issues:**

N/A

**Procedure:**

For Desktop PC/Laptop:

1. Download the latest BirdCheck software (version #) at the following site:

<https://swservices.iongeo.com/>

username: device-support

password: Maes5xochi

2. Install the software to the computer that will be used.
3. Once installed, request a license by emailing [marine.custsupt@iongeo.com](mailto:marine.custsupt@iongeo.com)
4. Enter the license when received.

For Hand Held PC:

Request an upgrade package by emailing [marine.custsupt@iongeo.com](mailto:marine.custsupt@iongeo.com) and include the Hand Held PC serial number found on the back of the unit. The upgrade package will include installation instructions.
